# More About Wendy

Wendy Chamberlain, your Melbourne Buyers Advocate, is a dynamic sought-after speaker, trainer, international best-selling author and lover of all things real estate. She shares her message with passion and enthusiasm.

Driven by a desire to educate and empower others and a need to follow her passion, Wendy threw in her high-powered, six figure job with its \$45 million budgets and gut wrenching stress to create [Affluencia.com](http://Affluencia.com), a real estate education website showing enthusiastic would-be property owners how to get started in real estate.

An avid real estate investor herself, Wendy has bought and sold more than a dozen properties over the past 28 years using various investment strategies, including several renovation projects, positive cash-flow investments and in her Self Managed Super Fund.

Having worked in IT for over 20 years, Wendy holds a Bachelor of Computing Degree and has successfully established and run a National IT Help Desk for a Global company. In 2009 Wendy established Savvy Web Women, employing her unique ability to decode the “geek speak” and “techno-babble” using simple, plain English to help savvy business owners better understand social media and navigate the online world.

In 2013, Wendy launched Social Property Selling, working with real estate agents and people selling their homes to leverage the power of the online world into their real estate sales marketing. Social Property Selling was the realisation of two passions for Wendy – real estate and computers – and she brings to the table her considerable experience and expertise in both arenas.

For Wendy, her move into becoming a buyers agent was a natural progression.
